Professional Summary

Strategic and results-oriented IT leader with a strong foundation in software engineering and over 8 years of experience driving digital transformation across mobile and backend platforms.

Proven track record in leading cross-functional teams, managing full software development lifecycles, and delivering scalable solutions in the biotech and fintech sectors.

Adept at stakeholder communication, resource planning, and aligning technology initiatives with business goals. Seeking to leverage deep technical knowledge and hands-on leadership experience into a formal IT management role.

Professional Experience

IT Consultant, Project Lead, *Roche* ⌞   02/2022 – 07/2025
                                                                     Barcelona
- Spearheaded platform development for a global biotech initiative improving patient outcomes for diabetes treatment.
- Led cross-functional teams (developers, UI/UX, QA) across time zones, delivering features to market on time and within scope.
- Served as Mobile Product Owner, overseeing Google Play and Apple App Store pipelines.
- Directed backlog grooming and sprint planning, aligning development efforts with evolving business goals.
- Managed CI/CD infrastructure, AWS S3 integrations, and Firebase lifecycle ensuring reliability and security at scale.
- Acted as technical liaison between stakeholders and engineering teams, translating business needs into actionable roadmaps.

Android Developer (Product Owner for SDKs), *Calldorado ApS* ⌞   04/2018 – 06/2021
                                                                     Copenhagen
- Owned product lifecycle for key SDKs used by B2B partners to maximize ad revenue and customer retention.
- Collaborated with executives and clients to define features, timelines, and deliverables.
- Co-led strategic roadmap development and usage analytics via Google Console.
- Mentored junior developers and coordinated with backend, UI/UX, and QA teams.

Backend Developer / SysAdmin, *Airofit* ⌞   11/2017 – 03/2018
                                                                     Copenhagen
- Delivered backend solutions for a health-tech startup as part of a fast-paced product team.
- Coordinated cross-functional workstreams and maintained production systems.
- Took ownership of project documentation and deployment pipelines.

Application Specialist, *Davinci* ⌞   07/2015 – 07/2017
                                                                     Bratislava
- Managed secure mortgage processing platform used by major EU banks.
- Collaborated with financial stakeholders to scope technical requirements and deliver updates under Agile.

- Facilitated technical demos and workshops for client training and onboarding.

Technical Support Specialist, *Accenture* ⬈   12/2014 – 06/2015
- Supported enterprise clients including Disney and Airbus by improving ticketing   Bratislava
  processes and automation scripts.
- Contributed to knowledge base documentation and technical process
  improvements.
